Franc's.-Cinderella, the wonder and delight of javenile humanity since the days of good king Arthur, was dramatically translated to delighted eyes at this bouse last night. As is most befitting in such dramss - and in such only-the personators were children, and they deserve much credit for the faithful manner in which they carried gray-beards and grandmas back in facey to the time when they were dovouring the wonderful story by stealth in sly corners, little dreaming that they would, half a century later, bring the second generation of their own fairies to such an entertainment. There was a house full in attendance last night, and everybody seemed delighted with the sights. How many bright-eyed young rogues were wide awake all night, rehearing and reenacting the drama for the edification of those who were obliged to stay at home, we leave to the imagination of the reader.

THE JOURNEIMEN CARPENTERS .- A meeting of Delegates, consisting of one from each shop, of the German Cabiret Makers who are aggrieved at the present low rate of wages, met last night at Social Reform Hall in Grand street. A Committee was appeinted to draw up a constitution and by laws, which will be referred for ratification to a mass meeting to be held on Friday or Saturday. The officers of the Association (to be called the 'Cabiret-Makers' Association") are as follows: President, H. Bernhadt; Vice-President, G. Goedecker; Secretaries, A. Zeiseig, R. Mauch and J. Gradwahl; Treasurer, Frederick Froh. It was decided that no more than ten hours' work daily shall be done by any of the members, and that a menthly fee of ten cents shall be levied for the purpose of mutual assistance in case of the destruction of tools by fire. The "strike" which was threatened, it appears, is averted, as about three-fourths of the employers have raised their wages from ten to fifteen per

Wm. C. Prime will give at the Athenaum to-night the first of three lectures on Egypt and the Holy Land, with illustrations by mun mies and relics from the land of the Pyramids.

BROOKLYN COMMON COUNCIL.—The Board met het evening, the PRESIDENT in the Cnair.

A Park in the Eastern District.—Mr. Minjer presented a resolution in favor of a public Park in the Eastern District. The subject was referred to a Special Committee to inquire and report upon the most central and advantageous position.

most committee to inquire and report upon the
most central and advantageous position.
Williamsburgh Claims.—The draft of an act autherising the payment of Williamsburgh claims, was
presented and directed to be transmitted to the Legislature for adoption. The city has been sued on a
number of these claims, there being no provision to

pay them.

Tazes.—A bill of \$264 57 taxes due the town of Hempetead for ponds belonging to the city, was pre-sented, and referred to the Water Committee.

THE STATE ARSENAL.—The Commission appointed to examine the outdition of the new State Arsenal in Portland avenue have prepared their report and transmitted it to Albays. Since the destruction of the New-York Arsenal, apprehensions of its insecurity have been entertained, and the appointment of an Examining Committee was the result. The masonry, it appears, is as substantially done as it possibly can be, and the reof is found strong enough for any ordinary purpose, but may possibly not be firm enough to withstand the jar which would be ounvoirably occasioned by the movements of large military bodies. Although there need be no apprehensions of danger, as the roof is now constructed, the Committee are of opinion that some addittical brading will make it secure beyond the probability of seeddent. The expenses will be comparatively small.

THE NASSAU BANK OF BROOKLYN .- The new bank under the above name will so into operation to day, when the bills will be issued. The office of the bank is in the building fermerly occupied by the Mechanics' Bank.

HUNTER'S POINT FERRY.—Work upon the ferry from Hunter's Point to Tuirty-fourth street. New York, will soon be communed, the Company having already advertised for estimates for building the docks and silps.

THE BROADWAY RAILROAD .- Owing to unavoid able alterations to be made to the cars of this route, they will not be ren until the last of the present week. By some error in construction, the gauge of the wheels was made two wide, and it will take some day to alter them.

PICKPOCKETS ON THE FERRIES.—Thieves often take advantage of the crowd at the Peck slip Ferry to rob passengers, and frequently encoced in obtaining considerable plunder. On Shurday evening a gentleman residing in Williamburgh had his pocket picked of \$15 by a well-dressed young man, who took advantage of the crowd entering the cabins to abstract his pocket book. BRUTAL TREATMENT.—William Porter, residing in

Furn an street, near Franklin, Greenpoint, was arrested yes-terday for brutally bearing his wife and inflinting injuries which are quite serious in their character. Forter was held in bonds

ROBBERY .- The house of Mr. Richard Lake, No 66 Fourth street, was entered yesterday by sneak thieves, and a pismo cover and some clothing taken from the parlor. The thieves escaped with their plunder.

NEW-JERSEY ITEMS.

FATAL ACCIDENT ON THE RAILROAD.-Yesterday afternoon, as the 4 o'clock train from Newark had stopped at the Hackersack bridge to allow the train New-York to pass, two boys, one a colored lad, were discovered upon the roof of one of the cars, where they had got clandestinely for the purpose of riding to Jersey City. The brakeman told them to come down, both of the boys jumped off on to the other track. Just at that instant the New-York train came sweeping by, and both of the boys were caught by the cow-catcher and thrown about 150 feet. They were taken on to the train, and, before arriving at Jersey City, the white boy died. On their arrival there, Mr. Woodruff, the Assistant Superintendent, sent for a physician, and everything possible was done for his re-lief. The colored boy said his name was Alexander Vanderveer, residing at No. 28 Forsyth street, and that of his companion was Fitzsimmons. Vanderveer was sent to the New-York Hospital. Boys are frequently caught on top of the cars, and, if allowed to remain, they would be apt to be thrown off and killed in going through Bergen out, at which place there is onite a curve.

BRUTAL SPORT-PIGEON SHOOTING .- A pigeonshooting match for \$100 a side took place yesterday afternoon on the Hoboken Meadows. John Taylor of Jersey City wagered to shoot forty out of fifty pigeons on the wing, the trap being placed at a distance of streeted thirty-ene yards, and the birds to fall within a circle of House.

eighty parcs. There was quite a number of persons present, and considerable money was staked on the pospit. Mr. Taylor killed the first fourteen birds and missed the fifteenth, and in all lost six birds. In one instance the cap missed fire, but before the bird was

out of reach be was brought down. This pigeon-shooting is on a par with rat and dog torturing, and such like manly sports. It is a pity the fellows who indulge therein cannot find some honest employment. When a brute in human form spends his time in such business, the fact is strongly suggestive of a vacancy in the Penitentiary.

THE BERGER TUNNEL.—The work on this tunnel, which was stopped a year ago last Outober, has been resumed under a new contract by Mesers. Sepulor & Cumming, who are putting on a large force of men in order to complete it as early as possible. The entire length of the tunnel will be 4,500 feet. There yet remain 140 feet of selfs note to be avauated in order to make connections with the several shafts. The tunnel at the greatest depth will be 164 feet below the surface. It is 24 feet high and 295 feet span.

Counterfeit Money,-Last evening Detective Officer Wildey received information from a private source, setting forth that counterfeit \$5 bills on the Rockford Bank of Rockford, Mass., were about being circulated throughout the city. Mr. Crowley, the operator in charge of the police telegraph, sent dispatches in relation thereto to the various Station-Houses. The vignette represents a man and woman

looking at a canal boat pass through a lock. At an early hour last evening an attempt was made to flood the city with counterfeit \$10 bills on the Mechanics' Bank of New-Haven, Conn. According to custom the counterfeiters commenced operations in the up-town wards, but they had not got rid of more than, one or two bills before the fraud was discovered. A man giving his name as George Williams, was apprehended in the Twestieth Precinct, and locked up. He had only one bill in his possession. Casrles Edwards, a colored man, offered one of the bills to C. Szevens, of No. 435 Canal street, in payment for a cloth cap. Mr. Stevens had just been notified by the police in regard to the fraud, and the officer who called upon him was in the next store. Eswards was promptly screeted and locked up in the Eighth Precinct Station-

newly printed, the ink being still wet and sticky.

Three dollar bills on the Farmers' Bank of Lansingborgh altered from \$5 bills on the Farmers' Bank of Wickford, R. L., a worthless concern, were also in circulation last evering, but no arrests were made.
